Seeking a 12-week internship abroad as an Assistant Engineer / Senior Technician (18 May - 07 August)

About me

I'm a 3rd-year engineering student at ICAM, passionate about electronics, IT, and mechanical engineering, with a particular interest in automotive and aerospace applications. I have solid foundations in electronics, electrical systems, materials science, thermo-fluid mechanics, manufacturing processes, and project management. Motivated to apply my technical and analytical skills to innovative projects, I enjoy contributing to multidisciplinary teams and solving complex engineering challenges.

Experience

Electrical maintenance technician internship - OCP Groupe, Khouribga, Morocco ; January - February 2025

- Studied the Wi-Fi & fiber optic communication circuit for phosphate storage facilities.
- Supported technicians in preventive and corrective maintenance of electrical systems by assisting with material logistics and ensuring safety compliance during interventions
- Reviewed maintenance procedures and test results to ensure efficiency
- Analyzed electrical diagrams to identify risks and suggest improvements
- Promoted awareness of occupational health and safety (OHS) standards.

Operator internship - Automotive fitter - Norauto, Colomiers, France ; June - July 2024

- Worked collaboratively in a team of 4 to coordinate and fit around 60 tires per day.
- Mounted/dismounted tires & balancing.
- Repaired puncture.
- Performed wheel alignment and geometry adjustments (parallelism).
- Checked the conditions of the brakes.

Boat Project (School Project) - Icam, Toulouse, France ; September 2024 - May 2026

- Managed a team and worked collaboratively.
- Performed mechanical and buoyancy calculations.
- Modelled a boat with all components in CAD and manufactured the hull.
- Developed a dynamic website with integrated automation and remote control systems.

Education

Master's of Engineering (M.Eng) General Engineering School ; 2023 - 2029

ICAM (Institut Catholique des Arts et Métiers), Toulouse, France

Baccalaureate (equivalent A-levels) Maths, Physics, Chemistry, Science of Engineering ; 2020 - 2023

Lycée International Victor Hugo, Colomiers, France

Technical skills

- **Manufacturing Process:** MRP, Gantt
- **Lean Management:** PDCA, 8D, 5W, Ishikawa, Kaizen
- **Programming:** Python, Arduino, MATLAB, GitHub
- **Web Development:** HTML, CSS, JavaScript, PHP, SQL
- **CAD:** SolidWorks, OnShape
- **Element Finite Method:** Patran Nastran
- **Electronic Simulation:** LTSpice, Logisim

Soft skills

- **Critical Thinking**
- **Problem-Solving**
- **Teamwork & Collaboration**
- **Initiative & Proactivity**
- **Adaptability**

Languages

French - Native
Arabic - Fluent
English - Advanced (B2)
Spanish - Intermediate
